Dear Andrew

STINGER NET – MISSION BEACH

I refer to your letter dated 19th March 2007 concerning the foreshore near the Mission Beach stinger net and in particular to the upgrade of the stinger net information sign.

Council is in the process of upgrading the parking and picnic area near the stinger net and this should be completed by the end of April 2007.

In relation to the stinger net information sign that was destroyed during Cyclone Larry, I can advise that Uninet who Council leases the net from along with Surf Life Saving Queensland and the local authorities who have nets are arranging new signs with current up to date information. It is expected that these signs will be installed by the end of May 2007.

Yours faithfully

DAVID TROTTER
